

## Vegetable Trials Top Producers 2024

### Franklin County Master Gardener Volunteers

What should I plant this year? To help home gardeners in Franklin County answer this question, Master Gardener volunteers manage the Vegetable Trials research garden. Each year, two or more varieties of the vegetables most popular among home gardeners are raised using good cultural practices and evaluated for plant health and yield.

Following are the best producers:

Category	Type	Variety	Days to Maturity	Trial Year	Description
Beans	green, bush	Affirmed	56	2022	High yielding, compact plants with good disease resistance
Beans	wax, bush	Gold Mine	55	2020	Crisp, ultra-sweet 5-6" beans that grow in clusters for easy harvest
Beets	yellow	Boldor	84	2019	Yellow flesh with strong tops
Beets	red	Boro	50	2020	Tough, reliable, smooth skin, good tops
Carrots		Danvers	65-87	2019	Stores well; sweet, tender; high yield in heavy and clay soil
Collards		Georgia Southern	80	2019	Slow to bolt; 2-3' tall; tender, mild, juicy yield
Cucumber		Early Fortune	55-60	2022	Prolific Fruits up to 8" long
Eggplant	heirloom	Listada de Gandia	60-70	2022	Fruits are 5-6" long with white and purple stripes

Category	Type	Variety	Days to Maturity	Trial Year	Description
Kale	lacinato	Black Magic	65	2019	15" wide, 19" tall improved lacinato, superior performance
Kale	ruffled	Scarlet	44-60	2019	Purple broad frilly leaves grow 2-3' tall on upright stalks, high yield
