**Requirements for 3-Sided Cardboard Tabletop Display**  
Your display is a way of showing others what your project is about. The display alone is not the project, but it is nevertheless important. As with all parts of your project, you should take time to do it right. The diagram below gives the required components and their placement for a basic 3-sided display. However, your own creativity will determine how your display looks. In your own words, use narrative and/or bulleted points for the sections labeled **Background**, **Areas of Interest**, **Results**, and **Conclusion**.
